

SUPRA BOATS

FORTY YEARS OF
PASSION & PRECISION

BUILD YOUR STORY.

OPT FOR THE EXTRAORDINARY.

You get out what you put in. And, when you're talking about getting out on the water with the people you love, only the best will do. It's for this reason, we at Supra offer premier technology, bold design and precision engineering—all created to provide the best wakeboarding and surfing experience in the industry. Because you aren't just investing in a boat. You're building your next chapter—commit to making it a great one.

ELEVATE EVERY MOMENT.

Take in the bold design. Notice how the precisely engineered systems obey your every command. Move through the interior and experience what refinement feels like. And appreciate how it comes together to create the premier experience on the water. This is Supra, and this is what towboat excellence feels like.

+ SUPERIOR PERFORMANCE.

The unparalleled performance of Supra® begins with the Raptor engine and a transmission gear ratio optimized for torque—an ideal combination for activities like surfing. And they are further optimized by our competition hulls and Mega Velocity Ballast System.

+ PRECISION ENGINEERING.

Owning a Supra is a singular experience with many benefits like AutoWake®, Vision™ Control, the FxONE Power Tower and more. This synergy of world-class technology and innovation can be found only in the heart of a Supra.

+ REFINED INTERIORS.

Our interiors serve an important purpose: To bring comfort and luxury to your time on the water. We achieve this with color contrast stitching, Chill Tech Vinyl, heated seating and uncompromising attention to detail.

+ BOLD DESIGN.

Every Supra is designed to catch the eyes. And they are also customizable down to the slightest detail. From GatorStep to graphics, we can make your towboat as unique as you are.

BRING THE WATER TO LIFE.

AUTOWAKE

AutoWake® takes the guesswork out of wakes and waves. This patented, industry-exclusive hull management system automatically manipulates the hull position to produce a precise wake or wave—every time. And it does it all without interrupting passengers or distracting the driver.

HOW IT WORKS:

AutoWake features patented systems that work together to automatically and continuously manage the position of your hull for a perfect and repeatable wake for every rider, in any water condition.

+ CUSTOM RIDER PROFILES

Personalized wakes and waves are a button push away with customized rider profiles.

+ PITCH & ROLL ADJUSTMENTS

AutoWake constantly measures pitch and roll to automatically drain or fill ballast.

+ PREDICTIVE STATE TECHNOLOGY

Senses and fills ballast to predicted levels to provide a precise wave.

+ AMPLITUDE DISPLAY

See how the boat's displacement in the water effects wake shape, size and performance.

+ AUTOWAKE LEVELING

This feature independently adjusts each Swell Surf Plate as needed until the boat is level—no matter whether you are cruising or heading back to the dock.

FORM AND FUNCTION ARE ON THE RISE.

VISION CONTROL™

Sleek and intuitive, Vision Control puts everything within reach with one-touch access to media, wake, surf and lighting controls. So you can manage our cutting edge technology with equally modern controls.

DUAL STERN THRUSTERS

Experience effortless maneuvering, even in strong winds and currents with Supra's Dual Stern Thrusters. They make everything from docking to picking up riders quicker and easier than ever.

FxONE TOWER

The FxONE Power Folding Tower is made from billet aluminum to reduce flex and rattle. Thanks to its smooth power actuators, the tower can be deployed at the push of a button. Best of all, the FxONE comes standard on every one of our boats and is available in many color choices and accessory options.

SMARTER WAKES AND WAVES START HERE.

The key to precise wakes and waves is our trio of exclusive systems: Swell™ Surf 3.0, Supra® Launch System and Supra SmartPlate™. All three work in unison to deliver wakes and waves tailored to your preference, giving you a premier experience on the water.

ALL SYSTEMS GO.

+ SUPRA SMARTPLATE

The multi-function Supra SmartPlate optimizes the hull's position in the water for wakes and waves customized to a rider's preference. It can also be deployed to smooth out rough water.

+ SWELL 3.0 SURF SYSTEM

The Supra Swell System delivers tall waves with long pockets and optimal push all the way through—perfect for riders who like to transfer from side to side.

+ SUPRA LAUNCH SYSTEM

The Supra Launch System is designed to get you on plane faster. Both the Swell Surf System and SmartPlate deploy during acceleration to provide the right amount of lift to get up and go.

1 JL AUDIO SOUND SYSTEM

Your SA comes hardwired for big sound with a premium JL Audio system. Featuring two 12" M7 subwoofers, 7.7" bow speakers and 8.8" cockpit M-6 speakers.

2 CONVENIENT IN-FLOOR STORAGE

Bring it all, and then some. In-floor storage goes a long way to help keep your cabin organized, yet full of all the gear and equipment you need on hand.

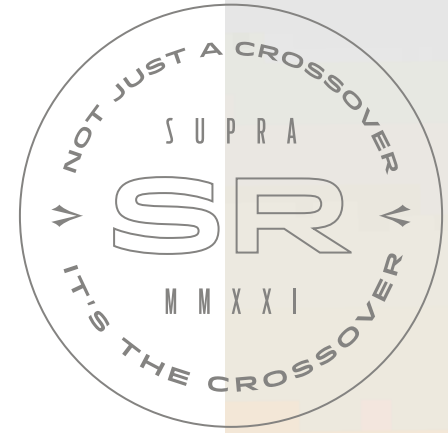

3 CHILL TECH VINYL

Chill Tech Vinyl stays cool to the touch in direct sunlight to make relaxing and lounging even more comfortable—and makes dark interior colors attractive build options.

1 ALL-NEW WINDSHIELD

We've updated and upgraded our windshields with custom color accents. Make your Supra stand out by choosing a color to match or compliment your FxONE tower.

2 MAX BIMINI WITH SURF STORAGE

Our simple and sleek Max Coverage Bimini doesn't just look great, it also deploys with ease and offers two large surf pockets for your boards.

3 ALL-NEW HEATED CAPTAIN'S CHAIR

Inspired by the cockpits of Italian racing design, the new height-adjustable heated captain's chair surrounds with comfort and performance. This is one chair that feels as good as it looks.

THE EMBODIMENT OF WINNING SPIRIT.

+ This is Team Supra. These athletes represent the very best of wakeboarding, wakesurfing and wakeskating. And they share our passion for pushing the boundaries of what's possible in water sports.
